EDMONTON BULLETIN, OCT. 25th, 1901.

CHARACTER OF UNITED STATES IMMIGRATION

Headquarters, New York is the port at which the bulk of the immigrants enter the United States. During the last fiscal year, indeed, out of 487,918 immigrants entering the country no fewer than 453,496 arrived at the port of New York. The report of the commissioner of immigration at that city is, therefore, of special interest to those who desire to be informed as to the character of that immigration. It appears from the report of commissioner Fitch just made public that a comparison of the average immigration of the past two years show that nearly 30,000 of the increase of last year over the year before was in the immigration from southern Italy alone. This represents the largest numerical increase, but greater relative gains are noted from other districts. The Ruthenian immigration nearly doubled, and the Armenian and Syrian, as well as the Greek immigration, shows an increase of about 50 per cent., while the Croatian and Dalmatian contributions to our population are credited with a gain of about 30 per cent. The further fact is elicited that from the high relative proportion of the female immigrants it may be assumed that these people intend to remain permanently in the United States. The amount of money per capita brought over shows an appreciable increase over last year. At the same time, the conclusion appears to be unavoidable that our immigration is constantly increasing in illiteracy. We are not, only drawing more and more from the countries where the percentage of illiteracy is high, but the immigrants themselves show higher percentages of illiteracy, nearly one-half of our average immigration presenting an illiteracy of from 40 to over 50 per cent. The deportations for the year a marked decrease, as compared with the year before, numbered 3,959, of which nearly four-fifths were registered as being or likely to become public charges.

It is suggested by Commissioner Fitch that as a means of protection against the coming of convicts, fugitives from justice or anarchists the presence of our inspectors abroad would be either futile or unnecessary. These inspectors, it is pointed out, would be dependent upon local police authorities for any information of the character required, and if no efforts were made to secure it the certificate as to the non-existence of bad antecedents would be worthless. If, on the other hand, the right to exact evidences of an unobjectionable police record were to be assumed, the commissioner asks why it should not be made at once a requisite for admission to the country, or the absence of such a record upon arrival be made prima facie evidence of criminality. It is suggested that a precedent to enable the immigration officers to exclude objectionable persons has been already established in the amendment to the alien contract law, which the courts have construed as applying to all the excluded classes. There is, it is submitted, no reason why the same procedure should not be extended to cover all cases of undesirable aliens, whether of the excluded classes or not, and without limitation of time, proper legal safeguards being, of course, provided against abuse of the power. As substantive recommendations, Mr. Fitch urges "the increase of the head tax to \$2 and the extension of the period of jurisdiction over immigrants from two to five years."

VETERANS BANQUET.

MacLeod Gazette: Last Monday MacLeod Post of the N. W. M. P. veterans held their first celebration of the arrival of the N. W. M. P. force into Southern Alberta 27 years ago. It had been decided to celebrate the occasion with a dinner and accordingly about 40 members of the association sat down in the MacLeod Hotel under the genial chairmanship of Mr. Ives, superintendent of the local post. He was assisted by Surgeon Kennedy, of the headquarters post, and Inspector H. H. Nash, of the local post. It is interesting to note that out of the many who were present, at least three marched into the country with the original band, viz: C. Ryan, R. Whitney and Joe Butlin.

FIGHTING EACH OTHER.

London, Oct. 16.—The long standing feud between the Durham and Worcester regiments of infantry culminated last night in a serious affray at Aldershot, where the Worcesters with fixed bayonets and bull cartridges attacked the quarters of the Durhams. Severe fighting followed, under which many of the men were injured. A number of Durhams are suffering from dangerous bayonet wounds.

LT.-COL. HUGHES, M. P.

LT.-Col. Hughes, M. P. for North Victoria, Ont., arrived at Monday's train to make a trip of inspection through the country lying between Edmonton and Battleford in the interests of the Canadian Northern railway. He spent Tuesday and Wednesday in Edmonton renewing acquaintances, with many former residents of the riding, now of Edmonton, securing information regarding the country to the north, south, east and west, taking camera views, and generally keeping as busy as only he knows how to be. On Thursday he went to Fort Saskatchewan and will proceed east from there probably by way of the Vermilion to Battleford or vicinity and return by way of the old C. P. R. survey. He will size up the traffic producing capabilities of the different sections of the region to be traversed, and is much surprised at the showing of Edmonton in that line, this being his first visit here.

Col. Hughes has had a very active and colorful career. He has been school teacher, journalist, Canadian militia officer, British army officer on active service in South Africa, and is sitting member for North Victoria in the House of Commons—a conservative. He is a prominent Orangeman. Amongst those who sat under his ministrations as school teacher is Mr. Fred Ross, of Ross House.

Col. Hughes was the first Canadian officer to suggest raising a Canadian contingent for South Africa. The suggestion was supported by the offer to raise the force. Gen. Hutton, then adjutant-general of the Canadian militia, took offense at Col. Hughes in this connection, and when the contingent was raised refused to allow him a place on it. Col. Hughes went to Africa on his own account. Without backing from any source, and with Gen. Hutton's ill-feeling against him, he secured employment and a responsible position in the operations in Griqualand West. He was chief intelligence officer under General Buller for the greater part of a year and served with distinction. He returned to Canada in time to contest North Victoria for which he had already cast several terms, in the general elections of 1900, and was again successful. He sits in parliament as a conservative, but is not absolutely under control by the party.

PRINCE ALBERT.

S. McLeod, M. L. A. for Prince Albert, returned home on Tuesday's train. While in Edmonton Mr. McLeod visited Malcolm McKinlay, of Stony Plain, with whom he was acquainted in the former home of both, Prince Edward Island. Mr. McLeod has been a resident of Prince Albert for the past eighteen years where he was engaged successfully in the mercantile business, from which he retired a few years ago. With the attention which has been attracted to it by the construction of the Canadian Northern and with its natural advantages, the region of which Prince Albert is the chief town is making rapid advancement this season. Settlers have been coming in in considerable numbers and large areas of land have been purchased by parties from the United States. Crops are good this year in all parts of the district. The Western district on the Regina and Prince Albert railway line about sixty miles south of Prince Albert has five elevators and ships an increasing quantity of wheat each year. The shipments this year will be very large. Saskatchewan, further south, at the railway crossing of the south branch, which stood still for many years is now coming up rapidly and is the principal centre of the recent large land purchases by people from the United States. The town is building rapidly and lots are advancing in price. Prince Albert is still the commercial centre of the district. Two flour mills are in operation there and an elevator is now in process of completion. Grain deliveries had commenced before Mr. McLeod left on the 10th inst. Prince Albert is the terminus of the C. P. R. branch from Regina and is assured of the Canadian Northern by next fall. Consequently the people are confident and real estate changes hands at good figures. South-west of Prince Albert the Carro river settlements are on the eye of a boom. The Canadian Northern was expected to have reached them this fall but owing to the delay occasioned by bad weather and the necessity of rushing the Reilly river section, it has not done so. Grading is being done almost to the edge of the settlements, but it is not completed and the end of the steel is still too far in the woods to the eastward to allow of the surplus crop finding an outlet in that direction. However, as railway construction will be very brisk in that region next summer it is thought that farmers will be perfectly safe in holding their grain for that market. This is said to be one of the finest pieces of country in the Northwest and has been settled under great difficulties because of its distance from a railway. The Canadian Northern traverses it from end to end and will develop it to the fullest extent. East of the farming districts of Carro river there is a heavily wooded country lying along the Red Deer river, before the farming country of Durham is reached. This wooded country contains a great deal of valuable spruce timber, which is being rapidly acquired by mill owners and speculators.

Taken altogether the present condition of Prince Albert town and district is most satisfactory and the prospects for the future are excellent.

BRIDGE WORK IN THE DISTRICT.

Foreman Archie Cameron and his bridge building gang of six men came in last week having finished their work for this season. Mr. Cameron has been engaged by the Territorial department of public works building bridges over creeks in different localities where the high water of this season made crossings particularly difficult. Much has been done to improve the condition of affairs in this regard but much more remains to be done next season. The following work has been done this summer:

Two pile bridges erected on Old Man's creek on the Clover Bar trail. A bridge at Bong's creek.

A pile bridge at Ross Creek, east of Fort Saskatchewan.

Pile bridge 125 feet long over White Mud Creek, south of Strathcona.

Bridge over Irvine's creek, near Beaumont.

Bridge over Rat Creek, Edmonton, between river lots 18 and 20.

A bridge over the Sturgeon at New Lunnock, on the crossing of the new trail to the Landing.

Raising of Cunningham's bridge on road west of St. Albert. This bridge was erected two years ago but the high water of last spring almost carried it away so it was decided by the department to raise it four feet. This was done last week by Mr. Cameron and the bridge is now above any probable damage by floods.

Mr. Cameron still has a small job to do in the laying of planking on the corollary on the base line west.

It is also possible that the department may decide to erect this fall another bridge over Mill creek, east of Strathcona, as they are now being communicated with on the subject.

Regina, West, Oct. 16.—It is to be hoped that the present fine weather will continue. Farmers are making good progress with threshing operations but there is only a small percentage of the whole harvest threshed as yet. Very little wheat has been offered on the Regina market as yet.

Returns from the refugee camps in South Africa for September show a total white population of 109,318; deaths among the whites, 241; of which 1964 were children. The colored population is shown to be 38,549, among whom there were 391 deaths during the month.

House for Sale Cheap

A nice little house and lot for a small payment down and the easiest kind of terms on the balance. Only three minutes walk from Post Office.

Sash and Door Factory, Main Street, Edmonton SELLS THEM. Also a full line of A 1 Shingles, Lath, Siding, Flooring, Window Frames, Mouldings, Turned Work, Egg Cases, etc.

SMOKER AT THE POST.

The welcome to the policemen and the welcome to the Canadian forces at the "Smoker" at the Post-Saunders South Africa was held at the Post-Saunders on Monday night. It had been intended to hold the "welcome" before but the difficulty of getting the guests together had always prevented an earlier date. The "welcome" took the form of a supper and dancing concert and was held at the Post-Saunders hotel. J. W. Sherr, M. L. A., was chairman and presided the supper with a short but well worded address in which he paid a tribute to the soldiers who had fought so bravely and so well and so upheld the name of the young nation whose representatives they were. The first of the evening after the name of the King had been honored was returned Soldiers' coupled with the names of Sergeant, Ritchie, Corporal, and Constable, Ferguson, W. M. P., and Messrs. Phillips, and DeBamus, of the civil engineers. A number of the returned men were unable to be present, but Constable, from Illinois. Another absent one was Constable, whose death was feelingly referred to by having given up his life for the Empire's cause. The toast to the soldiers was replied to by O. K. Morris, one of the vocal and other numbers.

When other lips than "thine," Sergeant, "Annie Laurie." The toast to the soldiers was replied to by O. K. Morris, one of the vocal and other numbers.

When other lips than "thine," Sergeant, "Annie Laurie." The toast to the soldiers was replied to by O. K. Morris, one of the vocal and other numbers.

TWO BIG STABLES.

A large frame livery and feed stable is being erected by J. B. Lubbock on Queen street, directly in the rear of the Haymarket store. The stable is to be a two-story building, with a frontage on Queen street of 60 feet. One wing, 30x60 feet, will be used entirely as a carriage stable. An elevator connects the upper and lower floors and by this rig will be raised to be stored when out of season. The stable wing is 32x57-1/2 feet and holds thirty-two horses. The other wing will hold twenty-five tons of hay. The stable and carriage shed are two stories high and the stable is equipped with two ventilators for carrying off of accumulations of foul air. The carriage shed is floored throughout with brick Columbia fire plank paving. The roof is to be covered with felt and gravel. The building will be completed about the end of the month. Its cost is \$2,500.

WHERE THE MONEY GOES.

The progress of the discussion between the Free Press and Telegram regarding provincial taxation of Manitoba municipalities continues, and from time to time develops information of interest. Recently the Telegram published a statement of the Free Press for provincial purposes on the municipality of Stanley for the current year, with explanations. The Free Press was taken for granted that the figures were correct. The only discrepancy was in the explanation. The statement and explanations are as follows:

DISCOUNT EXPENSES.	\$822.72
"This is a share of interest on sinking fund on \$175,000, debentures issued by Eastern Judicial Board years ago and is an old item."	
COUNTY PURPOSES.	137.12
"This is a share of maintenance of county courts, an old item."	
HEALTH PURPOSES.	137.12
"This is a share of \$5,061.67 expenses 'ward of health under act of 1893, an old item."	
WOLF BOUNTY.	27.42
"This is an old item, under act of 1893."	
ADMINISTRATION OF JUSTICE.	617.04
"This is a share of \$22,353.30 part of cost of administration of justice in Eastern Judicial district, and is the only new item."	
Total.	\$1,741.42

JAPAN TO RESTRICT JAPANESE.
Ottawa, Oct. 4.—While the Dominion government has found it necessary, owing to pressure from the Imperial authorities, not to include Japanese in the legislation against Chinese immigration, it is understood that strong Japanese government would induce the Dominion government to restrict to a minimum the number of Japanese permitted to enter this country as much as possible. There is now a law in Japan that only a limited number will come to Canada, but it is said that this has been strictly observed. The likelihood is that an assurance will be obtained from Japan that this law will be strictly enforced.

MANITOBA MARKETS.

Commercial, Oct. 19.

The market for Manitoba wheat has been firm and has advanced in sympathy with outside markets although not always at the same time or to the same extent. All week until yesterday 1 hard has held at 70c in store for William, spot or October delivery, and northern at 68c less. Yesterday was paid for 1 hard and 67-1/2 for 1 northern. At close of yesterday's market, 1 hard 70-1/2, 1 northern 67-1/2, 2 northern 64c, 3 northern 58c, in store for William, spot or October delivery, and 1-1/2 lots for delivery first half November. Tough wheat is worth 6c for tough 1 northern, and 58c tough 2 northern, in store King's elevator Port Arthur.

Country wheat—Marketing has been a little freer this week as the weather has been more favorable, especially toward the end of the week. Prices rule at about the old figure for best grades, but there is a good deal of inferior stuff coming in and the average price is now lower. Buyers are paying all the way from 48 to 55c per bushel for country points for the better grades of wheat.

Oats—The market is quiet and unchanged. Receipts are light and trading of hand-to-mouth character. We quote 30 to 32c per bushel for car lots on track at Winnipeg. At country points 24 to 26c per bushel is being paid.

Barley—Receipts are light and prices remain the same as last week. For malling grades dealers quote 38 to 40c per bushel in car lots on track here. Feed barley is worth 34 to 36c.

CANADIANS IN AFRICA.

Oct. 19, Out. Oct. 18.—A cable from Hon. Joseph Chamberlain to the Militia Department says that Richard Douglas Muir, whose father resides at Macgregor, Manitoba, was wounded in the arm at Beit Point on Oct. 10, and that Frank Nott of Port Perry, Ont., is dangerously ill with enteric fever at Elmdonfontein.

Frank Nott is a son of William Nott of Port Perry. He was a sergeant in the 34th Battalion when he enlisted for South Africa.

Ottawa, Oct. 18.—The wives and families of the Canadians serving as officers of the South African constabulary are said to be stationed at Malmesbury, the place reported yesterday as occupied by the Boers.

Ottawa, Oct. 18.—The following despatch from Mr. Chamberlain to His Excellency the governor-general has been received at the militia department: "London, Oct. 17.—Please inform H. Tunstead, 698 St. Patrick street, Ottawa, that H. Tunstead is reported missing, and is presumed to be dead. (Sd.)"

Henry Tunstead of Ottawa enlisted in the South African constabulary in February last, and has been serving with No. 1 Squadron in the field. His father, Mr. H. Tunstead, of St. Patrick street, has been notified by the militia department in accordance with the colonial secretary's request.

ATTENDANCE AT INDIAN INDUSTRIAL SCHOOLS.

Indian Advocate.
The Industrial school at High River, with a capacity of 120 pupils, had an average of 84 pupils for the year ending June, 1900. For two years past the attendance has been considerably decreased, owing to lack of recruits to replace discharged pupils.

Regina, capacity 140, average 110. Red Deer, having accommodation for 89 pupils, had on average of 60. The principal says: Recruiting for these schools is becoming a serious matter. Qu'Appelle can accommodate 225 pupils, and had an average of 218. Boys, 101; girls, 117.

Calgary Industrial, which accommodates only boys, closed the year with 37 pupils. Battleford, authorized number, 150; on the roll at the end of the year, 97. During the year only 2 boys and 4 girls were admitted; while 8 boys and 4 girls left the institution.

St. Boniface, Man., can accommodate 110 children. During winter, 120 were crowded in, 14 sleeping over the shoe shop. In March, 18 pupils were discharged; and in the last quarter the attendance fell to 82.

Regina's Land Industrial school, Middle church, Man., has had a "full house," the report reading thus: The attendance has been up to the full capacity the whole year, viz., 125, and a number of applicants were refused for want of space.

Elkhorn, Minn., is authorized to take in 190, but in April the inspector found at attendance 66. The principal explains that the fire of '95, and the subsequent occupation of rented buildings until Sept. '99, reduced the attendance. Brandon, capacity 110, average attendance 102.

In the case of Calgary, Elkhorn, and Regina's Land, the government pays all expenses. The others receive a per capita grant of from \$120 to \$145.

A New York despatch of the 21st says Sir Thomas Lipton will not be a challenger for the American cup next year. In an interview late tonight, Sir Thomas Lipton absolutely denied that he had any intention of building a new boat to compete for the cup next fall.

TRANSIENT ADVERTISEMENTS.

FOUND.

On the trail, Saturday, a double barreled breech-loading shot gun. Pay cost of this and apply at Police Barracks.

NOTICE.

WHEREAS a duplicate Certificate Title number 199 "H" in favor of Margaret Bailey, late of the Town of Edmonton, deceased, having been lost or destroyed and satisfactory proof being made to me by affidavit of each less or destruction of said duplicate Certificate of Title, Public Notice is hereby given that after the expiry of four weeks from the date of the first publication of this notice in the Edmonton Bulletin, a new duplicate Certificate of Title will be issued in favor of the said Margaret Bailey, deceased.

GEO. BRY,

Registrar.

Edmonton, Oct. 1st, 1901, 98-194.

LOCAL

—Lawrence Adamson leaves for South Africa next week.
—Walter Durrant came up last night from Wexsawia on a visit.
—J. R. Brown is erecting a two story frame dwelling on the corner of McDougall and Clara streets.
—Major Belcher has purchased the residence now occupied by T. Grindley, opposite the newly acquired police barracks.
—Horse Harvey, deputy attorney-general, and S. Chivers, west of the same departments, were south Thursday.
—Insp. Belcher went south Monday on an inspection of the police detachments along the line. He returned Wednesday night.
—Const. Ridd has been engaged for the past week collecting poll tax. About \$700 has so far been contributed to the town treasury.
—A double breasted breeches leader shot gun pilot up by Major Belcher last week still awaits the claim of its owner at the police barracks.
—Mr. Justice Scott went south yesterday to sit at Wexsawia for the confirmation of the land under the local improvement ordinance.
—D. McKenna, baker for Hallier & Aldridge, left yesterday morning for his home at Brandon. He is succeeded by Mr. Campbell, of Calgary.
—Jack Lindsay left for south Wednesday. A farewell send off was tendered him Tuesday evening by a number of friends at their room in the Gaiety Bock.
—Mossomin World: It is said that a comparatively small expenditure on the navigation of the Saskatchewan would enable us to get coal from Edmonton at a total estimated cost of \$9 per ton.
—A new steam thrasher and separator owned by Boissonault and others, of Morinville, pulled out Tuesday to commence work near St. Albert. Only one thrasher is working near St. Albert, at the mission.
—The Benton River Press says that D. W. Davis, and later on, the Benton River, in and McLeod, formerly M. P. for Alberta and now collector of customs at Dawson, is now a quarter of a million dollars in debt.
—The case against H. C. Hensel, charged with breaking McDougall & Second's plate glass window was up yesterday. The accused has acknowledged his guilt and is making a settlement of the case by paying the damages, about \$750.
—J. W. Miller, of the Grand Central Hotel, while examining a bottle in J. R. Mercer's store, Monday, stepped backwards into a door leading into the cellar and narrowly escaped serious injury. Beyond a severe shaking and a sprained leg he was unharmed.
—A special meeting of the curling club will be held to-night in the rink. The old rink having changed hands new quarters will have to be arranged for by the curlers this winter. The meeting is, of special importance at which all curlers are requested to attend.
—E. Keith, of Clover Hill, shot two pelicans on the river yesterday. They are magnificent birds measuring nine feet from tip to tip of the wings. They are splendid specimens and well worthy of being preserved as such. They are on view and for sale at Vogel & Tomlinson's.
—J. B. Lubick will occupy his new stable on Queen's avenue on Tuesday or Wednesday of next week. Mr. Lubick intends going out of the feed business and confining himself to livery. He has now sixteen horses in his stable. The stable part of the new building is now completed and the carriage barn will be finished in about ten days.
—The town pound is still unfinished and animals having no tags will be impounded. The fence has not been completed and no gate has been put in. The poundkeepers are therefore unable to impound any live stock brought to him. Meanwhile roving animals continue to raid any loads of eatables offered on the river bank.
—Prince Albert Times, Oct. 11.—Threshing is now pretty general throughout this district. Mr. T. F. Miller has threshed out his own crop, that of Mr. Thos. Scott and others, and says, although there is some poor grain, for quantity and quality the great bulk of the harvest has never been equalled in Saskatchewan before.
—G. W. West, merchant of Innisfail, has returned from a trip to the Innisfail district and reports that the harvest is good and prices are not fixed. Edmonton prices are recognized as the standard. Mr. West returned south on Thursday.
—Fishery Inspector Harrison S. Young and driver, Desh. Adams, returned Monday night from an eleven days trip to Lac la Biche where they had been to inspect the fisheries. The route was excellent and could not be better. It being the spawning season fish were very scarce in the lake. Lac la Biche was one of the most important missions of the Roman Catholic church and the settlement of half-breeds was very large. Later the church moved their buildings to St. Paul de Meis and Lac la Biche was left almost deserted, only one priest being left in charge. Even the buildings were dismantled, the machinery in the mill removed and the door and windows of the mission building taken away. There is, however, a considerable settlement of half-breeds on the site of the lake opposite to the mission site and H. B. Co. post there their garden and entered quite extensive very rough, a considerable quantity of garden produce being raised each year. On the mission and company side of the lake the natives subsist almost entirely on fish which are caught in great numbers during the fishing season. The lake itself is a splendid body of water, perfectly clear and having a hard bottom shore and bottom. At almost any point along its southern shore, a team and wagon could be driven 50 yards out into the lake.

CARD OF THANKS

The Ladies Aid society of the Presbyterian church wish to thank individually all those who took part and assisted in the Autumn Bazaar in any way. Many willing hearts and hands had been at work as was manifested by the splendid show of goods, etc. The music furnished by Miss Richardson, Miss McCauley and Prof. Jones on the piano was excellent.
Any persons who have dishes or milk cans which do not belong to them are kindly requested to leave them at H. Asstley's store.
All unclaimed dishes will be found in the porch of the Presbyterian church.

PORT SASKATCHEWAN FAIR

The annual fair of the Port Saskatchewan agricultural society took place on Wednesday and Thursday, and was favored by magnificent weather. But the feature of the fair was a disadvantage to the fair rather than otherwise, for farmers grudging taking the time to prepare exhibits and attend the fair from the work of stacking and threshing now so generally in progress. The attendance therefore was small and the exhibits although of good quality were few in number. In the agricultural hall were some very good samples of grain, roots and vegetables, but not from enough exhibitors to make keen competition. Two exhibits of flax seed, two of fall wheat and one of timothy seed showed an effort to diversify farming operations, which is very desirable and creditable. The grain shown was all of this year's growth and was clean and good. One of the samples of barley was particularly bright. Wheat in the straw, and timothy unthreshed were also good samples. Some splendid potatoes, cabbages and carrots were shown, but other vegetables were not specially notable. A sample of home grown tobacco was also prepared and was shown. There was a very nice showing of fancy wool all having the merit of being shorn the first time. The very beautiful exhibits of pressed wild flowers and grasses were shown, by Miss Violet Staples and Miss Palfrey. It would be hard to say which showed the greatest range of observation, skill in preparation or artistic arrangement. The show of live stock and poultry was small. The race gave the chief interest to Thursday afternoon and evening. Sales of fancy wool and lunch tents were conducted on the grounds by the ladies of the Presbyterian and English churches, added materially to the attractions and did a thriving trade.
A large number of people from Edmonton and Strathcona attended taking advantage of the fine weather and good roads for coming. Edmonton Port Saskatchewan was taken place in the morning and a dance in the Mansion House in the evening.

PORT SASKATCHEWAN RACES

Wednesday.
2:40 trot or pace;
1st, L. J. Starrett's "Hobo."

3rd, Anderson's "Chabell."
Farmers' Trot or Pace;
1st, J. Graham's "Minnie G."
2nd, Cascard's "Gyp."
3rd, Simon's "Bessie."

HARVEST AND THRESHING

Magnificent weather continues, and stacking and threshing are in brisk progress. Stacking is finished in many settlements and threshing is in progress in all. Grain is in splendid condition except a little of what was stacked and threshed before the weather cleared. The returns from the threshers are exceeding expectations, and the quality is good. Fall plowing is getting on, but it is not likely that a very large area will be plowed this fall. This morning the weather indicates a change.

RIFLE MATCH AT THE FORT

Fort Saskatchewan, Oct. 25.—A rifle match held here yesterday between two Edmonton teams and a team of local shots. W. Pearce acting as captain for the visitors and J. F. Forbes, captain of the home team. The match began at 10 a. m. The light was a little bad coming down the range and in making the big showing at the longer ranges somewhat uncertain. The captains of the two teams, however, made fairly good scores, each securing 25 at both 200 and 500 yards. Pearce dropped off at 600 yards, making only 17 while Forbes got 24, giving him the top score of 67 out of a possible 77. Following are the individual scores of the teams: Ed. Locke, 43; W. H. White, 43; J. F. Mercer, 34; Latimore, 43; W. Pearce, 67; B. Bylie, 66; J. J. Dunlop, 31; Geo. Durrand, 69; L. Price, 12; J. F. Rogers, 67.
Totals, Fort Saskatchewan, 278; Edmonton, 143.
The match was merely a scratch arrangement, the advertised matches being postponed a few days owing to the non-arrival of ammunition.

THE RAILWAY

Mr. McCrimmon has increased the number of teams on his work this week and is making the big showing on the last mile of his contract. Mr. McCauley will have the big bill of the work and of the bridge completed to-morrow.
All the bridge and pile timber has arrived and is being rapidly teamed to place.

Interest allowed on Deposits.
A general Banking business transacted.
J. S. WILLIOTT, Manager.

HARVEST FESTIVAL

The Harvest Festival in All Saints' church last evening was very largely attended, the building being crowded. The church was appropriately decorated. The feature of the entertainment was the rendering of a harvest cantata by All Saints' choir and assisting friends under the conductorship of Vernon W. Barford. The soprano solo was taken by Mrs. Roy and the bass by Mr. Boly. J. Wilton Strachan, organist. The orchestra comprised Messrs. S. Jones, and H. Gruner, first violins; A. Engstrom and W. Stiff, second violins; F. T. Fisher, viola; C. Jones, cello; W. Clark, cornet. The choir comprised twenty voices. The rendering of the cantata was very effective.

The service was as follows:
Hymn 384, (Sullivan's "Jubilee" tune).
Special Psalms, 134 and 150th.
Magnificat and Nunc Dimittis, Barford in "C".
Garrett's "Harvest Cantata."
Hymn 386.
The service was sung by Rev. Mr. Webb, of Holy Trinity, Strathcona, and the lessons were read by Rev. J. C. Waco.

—R. Vance, of the Starbuck, Star, was in town Wednesday. The crops at Star are magnificent, both among the Galician and Canadian settlers. The grain is turning out twice as heavy a yield as was expected earlier in the season. There are seven threshers operating in the district and the crop is now three-quarters harvested. The top, Mr. Vance says, are dry but tough.

A force of Canadian scouts surprised a Boer leader near Balmoral. The Boers fired a short fight. The Canadians had two men killed and officer and two men wounded.

MARRIAGE

Bill—Allan—On Wednesday evening the 23rd, Mr. J. M. O'Donnell, of St. Albert, and Miss Jennie Allan, daughter of Mr. and Mrs. Jas. L. Allan.

DEATHS

O'Donnell.—At St. Albert Tuesday, the 22nd, the infant son of J. M. O'Donnell, of St. Albert.
McNulty.—At Lamontxox pool Wednesday, the 23rd, the wife of James McNulty, aged 22 years.
